

DAN-INJECT Australasia

Dan-Inject Co2-Injection Rifles

Item no:	Description:
I.M.	CO2 Injection rifle (wooden stock model) mount with rifle barrel for high precision shooting, 16 bars manometer, cleaning swab, included standard telescope Swift Premier 1.5-4.5x32mm.
JM.ST.	CO2 Injection rifle mount with 11mm bore barrel, 16 bars manometer, cleaning swab, wrench and standard telescope Swift Premier 1.5-4.5x32mm.
JM.ST.R.	CO2 Injection rifle mount with 11mm rifled barrel, 16 bars manometer, cleaning swab, wrench and standard telescope Swift Premier 1.5-4.5x32mm.
JM.SP	CO2 Injection rifle (Take Down model) with 2 barrels, short 11mm rifled extension barrel. Quickly detachable 11mm rifled extension barrel. (Length overall with rifled barrels), 25 bars manometer, cleaning swab, wrench and standard telescope Swift Premier 1.5-4.5x32mm.
JM.SP.25	CO2 Injection rifle (Take Down model) with 2 barrels, short 11mm rifled extension barrel. Quickly detachable 11mm rifled extension barrel. (Length overall with rifled barrels), 25 bars manometer, cleaning swab, wrench and standard telescope Swift Premier 1.5-4.5x32mm.
JM.DB.13	CO2 Injection rifle with a double barrel technique mount with 11mm rifled barrel and a 13mm bore barrel, 25 bars manometer, cleaning swab, wrench and standard telescope Swift Premier 1.5-4.5x32mm.
JM.DB.11	CO2 Injection rifle with a double barrel technique mount with two 11mm rifled barrels, 25 bars manometer, cleaning swab, wrench and standard telescope Swift Premier 1.5-4.5x32mm.

**Telescopic sights can deliver according to own measurements.
CO2 Injection rifle are delivered zeroed with pressure adjustment tables.**

Accessories for all Dan-Inject CO2-Injection rifles.

Item no:	Description:
REDDOTM	Red Dot Sight: AIMPOINT Comp C. mount on a new Injectionrifle to replace the standard telescope: Swift Premier 1.5-4.5 x 32mm.
REDDOT	Red Dot Sight: AIMPOINT Comp C.
IMCASE	Rubust rifle transport case for Model IM, 133 x 30 x 12cm.
JMCASE	Rubust rifle transport case for Model JM.SP. & JM.SP.25., 80 x 33 x 14 cm.
JM.DB. CASE	Rubust rifle transport case for Model JM.DB.11 & JM.DB.13, 115x36.5x14 cm.
J.M.C.	Soft transport case for Model JM.ST. & JM.ST.R.
SL	Rifle sling and fitting Model IM.
CO23	CO2-Cartridge, 16 grams, about 6 shots. 10 per box. for all JM. Models and PICO2. Security code UN1013
CO21	CO2-cartridge, 45 grams, about 25 shots, for Model I.M. and all JM. Models. Security code UN1013
CO22	CO2-cartridge, 72 grams, about 40 shots, for Model I.M. and all JM. Models. Security code UN1013
WRENCH	Specially manufactured tool to change from 16 g. to 45 & 72 g. Co2 Cartridge. Produced for all J.M. Models.
NUT	Replacement, Nut with square whole used for 16 grams Co2-cartridge. Produced for the J.M. Models.
DUMMY	Replacement, Dummy mount with coupling for foot air pump without rubber.
SGASKET	Sealing gasket used with CO2-cartridge for JM. Models.
VA1	Foot air pump with rubber tubing, coupling and connecting CO2-dummy, about 3 shots.
BRJM11	11mm rifle barrel for JM Standard for high precision darting.
BJ13mm	13mm barrel for 5 & 10 ml. darts for the JM Models.
B13mm	13mm barrel for 5 & 10 ml. darts for the IM Models.
RPIN	Syringe positioning (breech) pin.
CO2 HOLDER	Spare 16 grams CO2-Cartridge holder for all JM Models and PICO2.
BCSWAB	Barrel cleaning swab, spare part.
GRIPF	Spare plastic grip front, with fitting for JM Models.
GRIPB	Spare aluminium grip back, with fitting for JM Models.
MANO16	16 bars manometer included O-ring, gasket.
MANO25	25 bars manometer included O-ring, gasket.
RANGE	Bushnell, Laser range finder YP Sport 450.

Dart syringes and Injection needles for Dan-Inject Co2-Injection Rifles/Pistols.

Item no:	Description:
----------	--------------

S150	1.5ml Dan-Inject rifle/pistol dart syringe mount with stabilizer, needle are sold seperately, to be used in 11mm barrel. 100% quality control.
S300	3ml Dan-Inject rifle/pistol dart syringe mount with stabilizer, needle are sold seperately, to be used in 11mm barrel. 100% quality control.
S500	5ml Dan-Inject rifle/pistol dart syringe mount with stabilizer, needle are sold seperately, to be used in 13mm barrel. 100% quality control.
S10	10ml Dan-Inject rifle/pistol dart syringe mount with stabilizer, needle are sold seperately, to be used in 13mm barrel. 100% quality control.
DIO	Installation of RECCO passive diode in Dan-Inject 1.5 and 3 ml rifle/pistol dart syringe.

Specially produced Injection needles (min. order -10 pieces each box).

N1520	Injection needle 1.5 x 20 mm, plain
N1525	Injection needle 1.5 x 25 mm, plain
NC1525	Injection needle 1.5 x 25 mm, collared
NB1525	Injection needle 1.5 x 25 mm,barbed
N1530	Injection needle 1.5 x 30 mm, plain
NC1530	Injection needle 1.5 x 30 mm, collared
N1538	Injection needle 1.5 x 38 mm, plain
NC1538	Injection needle 1.5 x 38 mm, collared
N2030	Injection needle 2.0 x 30 mm, plain
NC2030	Injection needle 2.0 x 30 mm, collared
NB2030	Injection needle 2.0 x 30 mm, barbed
N2040	Injection needle 2.0 x 40 mm, plain
NC2040	Injection needle 2.0 x 40 mm, collared
NB2040	Injection needle 2.0 x 40 mm, barbed
N2060	Injection needle 2.0 x 60 mm, plain
NC2060	Injection needle 2.0 x 60 mm, collared
NR2260	Injection needle 2.2 x 60 mm, plain
N2210	Injection needle 2.2 x100 mm, plain
BIO20	Biopsy needle including nail, lenght 20mm.
BIO25	Biopsy needle including nail, lenght 25mm.
TC300	Training needle without injection ports.

Sealing sleeves are including when purchasing min. 10 pieces needles.

Accessories: Dart syringes and needles for C02-Injection Rifles/Pistols.

Item no:	Description:
DVP	The Venting Pin.
SLEEG	1 pk. about 50 pieces sealing sleeves only, green for needle diameter: 1.5mm.

SLEEGR	1 pk. about 50 pieces sealing sleeves only, red for needle diameter: 2.0 and 2.2 mm.
COU	Syringes connector, (Coupling). The Syringe connector is used to connect the MONO syringe and the dart syringe together in order to pressurize the dart or to clean the dart.
PRO3R	The PRO3R safety cap is used on the 1.5 ml and 3 ml rifle/pistol dart syringes.
PRO5	The PRO5 safety cap is used on the 5 ml and 10 ml rifle/pistol dart syringes.
STABR	Replacement stabilizer for 1.5 and 3 ml rifle/pistol dart syringes, RED
STAB5	Replacement stabilizer for 5 and 10ml rifle/pistol dart syringe. RED / WHITE.
OIL	The Silicone Oil is used to lubricate the black plunger inside the dart syringe for better dart maintenance.
MONO	The 12ml monoject syringe is used for pressurizing the rifle, pistol and blowpipe dart syringe. Luer Lock Tip - 1 box – 90 pieces.

Dan-Inject CO2 and Air pressure Injection Pistols.

PI	Air Pistol with groove, manometer, foot air pump, cleaning swab and 11mm brass barrel.
PICO2	CO2 Pistol with groove (fitted for a BSA red dot laser sight) forefinger valve system, manometer, pressure adjustment, cleaning swab and 11mm brass barrel.
CO23	CO2-Cartridge, 16 grams, about 6 shots. 10 per box.
PB13mm	13mm barrel and barrel connector (Bushing) to be used with 5 & 10 ml. darts for the PI Models.
VA2	Foot air pump with rubber tubing, coupling.

Spare parts for PI & PICO2

P11mm	11 mm barrel for Pistols, sparepart
P13mm	13mm barrel for Pistols without bushing - sparepart.
Bushing	Pistol adapter (Bushing) Extra (P13mm) - sparepart.
CO2holder	16 grams CO2-Cartridge holder for PI models -Sparepart.

Dan-Inject Jabstick.

CATS	Jab Stick, complete automatically tranquilizing and medication stick, manufactured of aluminium and stainless steel, which injects 1 - 10 ml in one second or less on act. including removable telescope and 1 nylon syringe.
JSBAG	Adjustable strap carry bag Mat/PVC leather Tan, cassette type, with zipper pocket.

Jabstick equipment set, complete.

CCATS Automatic tranquilizing & medication stick, with removable telescope packed in a JSBAG included 1 Nylon syringes and 2 boxes needles for Jab Stick, various sizes.

Spare parts for Jabstick.

Alucover Aluminium cover for Nylon syringes, spare part

Cgasspring Gas spring complete with piston and alu. handlebar - spare part

Special Hypodermic needles for Jabstick. 10 per box - price each per box.

SN215 Luer Lock needles, 10 per. pk. Needles 2.0 x 15 mm.

SN225 Luer Lock needles, 10 per. pk. Needles 2.0 x 25 mm.

SN235 Luer Lock needles, 10 per. pk. Needles 2.0 x 35 mm.

SN315 Luer Lock needles, 10 per. pk. Needles 3.0 x 15 mm.

SN325 Luer Lock needles, 10 per. pk. Needles 3.0 x 25 mm.

SN340 Luer Lock needles, 10 per. pk. Needles 3.0 x 40 mm.

NYLON Spare 10 ml Nylon Multi Use syringe for CATS.

Dan-Inject Carry and Handling system.

RUG Carrying RUG for tranquillised animals with reinforcement of all exposed areas, especially designed for professions use. Handles for max. 16 persons, plus possibility of insertion carrying rods. Material: Strong PVC. Measurements: 197 cm x 145 cm.

Dan-Inject Blowpipe system.

BLOW 125 1.25 meter long, strong blowpipe with cleaning swab. Model Zoo is a one-piece construction and is most effective at short ranges and in close quarters.

BLOW 180 1.80 meter long, strong blowpipe with cleaning swab. Model Røken is an easlily dissembled two part blowpipe providing greater accuracy at longer ranges.

Blowpipe equipment set, complete.

CBLOW125 Complete blowpipe system Model Zoo including:
 1 Blowpipe system (Blow 1.25)
 5 p. 1.5 ml blowpipe syringes (BL15), 5 p. 3 ml blowpipe syringes (BL30) with 10 blowpipe needles (BN38) and green sealing gasket. 2 COU - 1 mount with MONO for loading (air), 1 disposable drug filling syringe with needle, 1 air release pin (DVP) and 2 safety caps (PRO3B).

CBLOW180 Complete blowpipe system Model Röken including:
 1 Blowpipe system (Blow 1.80)
 5 p. 1.5 ml blowpipe syringes (BL15), 5 p. 3 ml blowpipe syringes (BL30) with 10 blowpipe needles (BN38) and green sealing gasket. 2 COU - 1 mount with MONO for loading (air), 1 disposable drug filling syringe with needle, 1 air release pin (DVP) and 2 safety caps (PRO3B).

Blowpipe syringes and needles.

BL15 1.5 ml. blowpipe dart syringe included needle 1.2 x 38mm and green sealing sleeves.

BL30 3.0 ml. blowpipe dart syringe included needle 1.2 x 38mm and green sealing sleeves.

BN25 1.1 x 25 mm needle for Blowpipe including green sealing sleeves when purchasing min. 10 pieces needles.

BN38 1.2 x 38 mm needle for Blowpipe including green sealing sleeves when purchasing min. 10 pieces needles.

ALUBN38 1.2 x 38mm Alu needle (much stronger) for Blowpipe including green sealing sleeves when purchasing min. 10pieces Alu needles.

Acessories for blowpipes.

DVP The Venting Pin.

COU Syringes connector, (Coupling).

PRO3B Safety cap for 1.5 ml and 3 ml blowpipe syringe.

SLEEG 50 p. sealing sleeves only, **green**.

STABO Stabilizer for 1.5 and 3 ml blowpipe syringe, **ORANGE**.

The prices/products are subject to change.
